

Some people can't wear a face mask or covering because of a disability. The NZDSA have designed these cards to help you in public situations. The first side of the card is always the same and some people will be happy using it on its own. Show it to quickly explain that you have a legal reasonable excuse not to wear a face mask. If you want a non-verbal way to explain more you can double side your card with one of the extra messages. These can be printed or kept on your phone as photos.
